#### Star Ratings:

The star rating classifies each credit union based upon a complex formula which factors in relevant data including, but not limited to: capital, historical trends, loan delinquencies, differences in the book and market values of the investment portfolio, losses, repossessed assets, reserves, and asset quality. Negative trends are projected forward to compensate for the lag time in the data. BauerFinancial employs conservative measures when assigning these ratings and consequently the ratings will often be lower than those supplied by other analysts or the institutions themselves. More than thirty years of experience has shown this to be a prudent course of action. As a general guideline, however, the following groupings were used:

5-Stars	Superior. These institutions are recommended by <b>Bauer</b> .
4-Stars	Excellent. These institutions are recommended by <b>Bauer</b> .
3-Stars	Adequate.
2-Stars	Problematic.
1-Star	Troubled.
Zero-Stars	Our lowest rating.
N.R.	Not Rated. Either: the institution's shares are not federally insured, it has less than \$1.5 million in assets or it is too new to rate.
S.U.	Start-up. Institution is too new to rate. (Obsolete beginning 6/30/18 data.)
RSLVD	Institution has been resolved or liquidated since the reporting date.

## DISCLAIMER

The financial data used to prepare this report, unless otherwise noted, was obtained from reports filed with the National Credit Union Administration (NCUA), the regulatory agency for credit unions. Although the information obtained from this source is consistently reliable, the accuracy and completeness of this data cannot be guaranteed by BauerFinancial. In fact, an astute investor would agree, and experience has shown, that marginally performing institutions sometimes give themselves the benefit of the doubt when filing their reports. Our historical data helps us detect these variances.

## INTRODUCTION

The financial data used to prepare this report, unless otherwise noted, was derived from data provided by the National Credit Union Administration (NCUA). The database contains data on federal and state credit unions derived from the Form #5300 report that each credit union submits quarterly. The data is then reviewed and classified by the NCUA prior to publication and released approximately three months after the end of the quarter.

## STAR RATING SYSTEM

**BauerFinancial's** star ratings classify each institution based upon a complex formula factoring in current and historical data. The first step of evaluation is the capital level of the institution followed by other relevant data including, but not limited to: profitability, historical trends, loan delinquencies, repossessed assets, reserves, regulatory compliance, proposed regulations and asset quality. Negative trends are projected forward to compensate for the lag time in the data. BauerFinancial employs conservative measures when assigning these ratings and consequently our analysis may be lower than those supplied by other analysts or the institutions themselves. More than thirty years of experience has shown this to be a prudent course of action. As a general guideline, however, the following groupings were used:

5-Stars	Superior. These institutions are recommended by <b>Bauer</b> .
4-Stars	Excellent. These institutions are recommended by <b>Bauer</b> .
3-Stars	Adequate.
2-Stars	Problematic.
1-Star	Troubled.
Zero-Stars	Our lowest rating.
N.R.	Not Rated. Either: the institution's shares are not federally insured, it has less than \$1.5 million in assets or it is too new to rate.
RSLVD	Institution has been resolved or liquidated since the reporting date.
