THINK BEFORE YOU CLICK

Small actions. Big protection.

GUARD AGAINST IDENTITY THEFT

Check your accounts regularly for suspicious activity.

Be alert for:
- Transactions you don't recognize
- Unexpected account alerts
- Bills for accounts you didn't open
- Credit inquiries you weren't expecting
- If something doesn't look right, contact your credit union immediately.

SPOT THE SCAM

Phishing emails and text messages often try to create urgency or curiosity.

Watch for:
- Unexpected emails or texts asking you to act immediately
- Requests for passwords, account numbers, or verification codes
- Links or attachments from unfamiliar senders
- Messages that seem "too good to be true"

When in doubt, don't click. Contact the company directly using a trusted phone number or website.

PROTECT YOUR ACCOUNTS

- Use a unique password for every account
- Turn on Multi-Factor Authentication (MFA)
- Keep your devices updated
- Use a password manager

SHOP ONLINE SAFELY

- Shop only with trusted retailers
- Look for https:// before entering payment
- Avoid making purchases on public Wi-Fi
- Be cautious of unbelievable deals
- Verify QR codes before scanning

THINK BEFORE YOU CLICK

Before clicking a link, opening an attachment, scanning a QR code, or responding to an unexpected message, ask yourself:

- Was I expecting this?
- Do I know who sent it?
- Does this seem legitimate?
